A. Content & Audience

    1. Did your peers clearly understand your site's purpose and target audience?

        - Yes, they clearly understood.

    2. What suggestions did they make to improve your site's content or messaging?

        - Make the header bar the same from all pages
        - Background color change
        - the header seems to take too much space when in phone form
        - Increase text size
        - Maybe add a feature that allows you to rate the movies to watch, or connect with friends to see their rating
        - Add the images for each show/movies
        - The buttons/ dropdowns could also benefit from some additional styling

B. Design & User Experience

    3. How did your peers respond to your site's design (layout, color, typography, or organization)?

    They responded well to to the design other than the issues above

    4. Did they find the design effective in communicating your message and engaging users?

        - Having the homepage make instant impact for users
        - The layout using a grid for the different medias

C. Functionality & Performance

    5. What issues did your peers identify with features or interactivity on your site?

        - Decreasing the size of the header on phone screens

    6. Did they note any pages or elements that loaded slowly or inconsistently across devices or browsers?

        - None

D. **Accessibility & Usability**

7. What feedback did you receive about accessibility (e.g., alt text, color contrast, keyboard navigation)?

   - Need a meta description
   - Changing the background color

8. What can you improve to make your site more inclusive and user-friendly?

   - More alt test on image and videos
   - A meta description
   - And a better background color
   - decreasing the size of the header in phone size
   - Add  the images for each show/movies

E. **Action Plan**

9. What did your peers like most about your site?

   - The design and layout

10. What two improvements will you make based on their feedback, and how will you implement them?
    - More alt test on image and videos
    - Add a  meta description to all pages
    - Use  a better background color with better contrast with the content cards
    - decreasing the size of the header in the media query
    - The buttons/ dropdowns could also benefit from some additional styling so I will try to make them look better.
    - Add  the images for each show/movies for better design
    - Maybe add a feature that allows you to rate the movies to watch, or connect with friends to see their rating. I will work on extra features when I complete the more necessary parts first..
